PROFESSIONAL SUMMARY

Motivated and detail-oriented Bachelor of Science in Information Technology student at North-West University (graduating 2027), with a strong foundation in software development, database systems, systems analysis and problem-solving. Experienced in mentoring and supporting students, with excellent communication, leadership and collaboration skills. Passionate about designing innovative, user-centred software solutions and eager to contribute technical expertise while continuously learning within an internship or graduate programme.

TECHNICAL SKILLS

Programming Languages: Java, C#, Python

Web Technologies: HTML5, CSS3, ASP.NET Web Forms

Databases: SQL, Database Design, CRUD Operations

Tools: Visual Studio, Microsoft Office Suite, Git & GitHub

Concepts: Object-Oriented Programming, Data Structures & Algorithms, Systems Analysis & Design, Software Development Life Cycle

EDUCATION

Bachelor of Science in Information Technology

North-West University, South Africa | Expected graduation: 2027

Relevant coursework: Software Engineering, Database Systems, Systems Analysis & Design, Information Security, Programming, Data Structures & Algorithms

PROJECTS

Course Enrolment Management System

C#, SQL, Windows Forms

- Developed a desktop application that streamlines student enrolment and degree programme management.
- Implemented full CRUD operations over a SQL database to manage student records efficiently.
- Built database connectivity using object-oriented principles for maintainable, reusable code.
- Designed an intuitive interface enabling fast, error-free data capture.

Optometrist Booking System

ASP.NET Web Forms, C#, SQL

- Built a web-based appointment booking platform for an optometry practice, from calendar to confirmation.
- Added input validation and calendar functionality to deliver a smoother booking flow.
- Integrated a SQL database for secure storage of patient booking records.
- Rendered dynamic booking views using GridView controls.

Student Data Processing Program

Java, File I/O

- Created a modular Java application that reads, processes and analyses student records from files.
- Applied modular programming techniques to produce maintainable, testable code.
- Implemented file handling and data processing to calculate student averages.
- Automated report generation from the processed records.

EXPERIENCE

Student Mentor

North-West University | Academic Mentorship Programme

- Mentored first-year students, providing academic guidance and structured study support.
- Assisted students with academic and technology-related challenges.
- Maintained mentorship records and monitored individual student progress.
- Strengthened communication, leadership and teamwork through regular engagement.

CORE COMPETENCIES

Critical Thinking & Problem Solving | Analytical Thinking | Team Collaboration | Leadership & Mentoring | Communication | Technical Documentation | Time Management | Adaptability & Continuous Learning | Customer-Focused Mindset

LANGUAGES

English | Sepedi | isiNdebele | isiZulu
